

This architectural elevation drawing shows a two-story house with a gabled roof. The main body of the house is finished with horizontal siding. A brick chimney is located on the left side, adjacent to a single-car garage with vertical paneling. The front facade features a central entrance with a small gabled porch supported by columns, and a large multi-paned window to the right. The upper story has two windows, one of which is partially obscured by a decorative horizontal band of small triangles. The roof is gabled with a wide overhang on the right side.

This architectural elevation drawing shows a two-story brick house. The main structure has a steep gabled roof with a decorative finial at the peak. The front facade features a central entrance with a small porch supported by columns, flanked by windows. To the right, there is a side extension with a lower, hipped roof and a single window. The entire house is clad in brick, and the drawing includes details like window frames, shutters, and roof textures.

A 3D architectural rendering of a two-story house. The house features a gambrel roof with a decorative barge end on the right side. The exterior is finished with horizontal siding. On the left, there is a brick chimney and a large, light-colored garage door. A small, covered front porch with a gabled roof and a single door is located on the right side of the house. The house is set on a dark, flat ground plane against a plain white background.
