A 3D perspective rendering of a two-story house. The house features a gabled roof with a textured surface, possibly shingles. The exterior is a mix of brick and horizontal siding. The brickwork is visible on the lower level and around the windows. The siding is on the upper level and on the right side of the house. There are several windows: two on the upper level and four on the lower level. The front entrance is centered and has a small porch with a gabled roof supported by two columns. The house is set on a dark, flat surface, and a shadow is cast to the left.
