This architectural elevation drawing shows a two-story house. The main structure is constructed of brick with a gabled roof. A large brick chimney is located on the left side of the house. The second floor features a single window, while the first floor has two windows. To the right of the main house is a two-car garage with a dark, gabled roof and horizontal-slatted doors. A small, detached structure with a gabled roof is visible on the far left. The drawing uses hatching and shading to indicate different materials and roof slopes.

A detailed architectural rendering of a two-story house. The main house features a gabled roof, a prominent brick chimney on the left side, and a facade with a combination of brick and stone masonry. There are six windows visible: three on the second floor and three on the first floor. To the right of the main house is a two-car garage with a separate gabled roof and two large roll-up doors. The entire structure is set on a dark, flat ground plane against a white background.

This architectural elevation drawing shows a two-story house with a brick exterior. The house features a gabled roof with a dormer window on the right side. The front facade includes a central entrance door with a small transom window, flanked by two windows. A small porch area is visible on the right side of the house. The drawing is a black and white line art representation.

A 3D perspective rendering of a two-story house. The house features a gabled roof with a chimney on the right side. The exterior walls are made of brick, with decorative stone or brickwork around the windows and doors. There are four windows on the second floor and three on the first floor. A small front porch with a gabled roof and a door is located on the right side of the house. To the left, there is a smaller structure, possibly a garage or shed, with a gabled roof and a door. The house is set on a dark gray shadowed ground.
