

The floor plan shows a symmetrical layout with two identical apartment units. Each unit features a living area with a fireplace, a kitchen, a bathroom, and two bedrooms. The central hallway provides access to the units and includes stairs and a linen closet. The plan is detailed with room labels, furniture placement, and architectural symbols for doors, windows, and stairs.

A detailed architectural rendering of a two-story house. The house features a gambrel roof with decorative bargeboards. The exterior walls are finished with horizontal siding, while the foundation and lower portion of the front facade are made of brick. The front facade includes a central entrance with a small gabled porch supported by decorative brackets, a large multi-paned window to the left, and a smaller window to the right. A detached garage with a gabled roof is attached to the side of the house. The rendering is a black and white line drawing with shading to indicate depth and form.

This is a detailed architectural elevation drawing of a two-story house. The house features a gabled roof with a wide overhang. The exterior walls are finished with a brick pattern. On the second floor, there is a single window with a dark frame and a small decorative element above it. On the first floor, there is a larger window with a dark frame and a decorative element above it. The house is shown from a side-on perspective, highlighting its profile and roofline.
