

A detailed architectural rendering of a two-story house. The house features a gambrel roof with a decorative barge end. The exterior is finished with horizontal siding on the upper level and brick on the lower level. A large brick chimney is located on the left side. The front entrance is centered and features a small porch with a gabled roof supported by decorative brackets. There are several windows, some with shutters, and a small side porch on the right. The house is set on a flat, light-colored ground.

The floor plan for the second floor of a duplex house is shown. It features two bedrooms (Bed 1, Bed 2), two bathrooms (Bath), two en suite rooms (En suite), a linen closet (Lin.), a storage room (St.), and a laundry room (W.). The layout includes a central hallway and a staircase leading to the upper floor.

The floor plan shows a two-story house with a symmetrical layout. On the left is a large Garage. The main living area is divided into two sections by a central Hall. The top section contains a Kitchen/Dining area with a table and chairs, and a Living area with a sofa and armchair. The bottom section contains a Kitchen with a sink and stove, and a Living area with a sofa and armchair. The central Hall features stairs leading up and down. To the left of the hall is a W.C. and a Cts. (Closets) area. To the right of the hall is another W.C. and a Cts. (Closets) area. The plan also shows a front entrance and a back entrance, both leading into the central Hall.
