Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: Y/98/20/PL
Site Address: Bonhams Field Main Road Yapton BN18 0DX
Description of works: Erection of 75 No. dwellings with associated parking, public open space & the creation of a new vehicular access. This application affects the character & appearance of the Main Road/Church Road Conservation Area & affects the setting of listed buildings.

Thank you for your internet representation made on 2nd December 2020 which has been recorded as an objection with the comments as follows:

OWPC31883

This is a grade one agricultural field, not a strategic site. This is in a conservation area. This is a highly visible gateway into the village and should remain unchanged to retain the character of the village. Such an important conservation area within this village, one of the last remaining of its kind, needs low density, high quality housing. No drawings have yet been supplied that show the impact of proposed buildings on either Listed Bonhams Farm House, nor the conservation area, from the road. These should be seen before ANY work is undertaken as once works have started the whole area will change appearance forever. The conservation department of ADC are against this development, residents are against it, the parish council is against it, southern water is against it. Who, apart from the developers, who stand to gain millions from its build, are in support? The infrastructure of the village of Yapton just cannot support more housing, with a further 750 households approved but yet to be sold. Do not allow unattractive, high density housing in a highly visible, historic part of the village as you will change its character forever and damage the surrounding Listed buildings. No work should be started until all surveys and tests have been completed and no changes to protective planning clauses should be allowed.

Your views as made above will be considered before the application is determined.
