Subject: Planning Reference Y/99/13

Dear Sir,

I wish to object to the planning application under the above reference on the following grounds:-

- 1 Yapton is a small village with limited infrastructure and communications. To impose a development of this size and nature on such a small rural community would entirely disrupt and in many ways destroy the present community's lives and spirit by imposing an excessive burden on the existing inadequate facilities and infrastructure particularly roads. The incoming population would no doubt tend to dominate the local scene to the detriment of a happy settled status quo.
- 2 Much of the proposed site would be on Grade 1 arable land at a time when it is realised that this country's ability to produce its own food is assuming ever more significant importance
- 3 I understand that the local community has not been adequately consulted which would be against the Government's expressed policy.

Yours faithfully,

Guy Obbard
