Subject: Ref Application No Y/99/13 attn Mr Cian Cronin

Dear Sir

I am very disappointed that once again hundreds of extra houses are being forced upon another small Sussex village.

As usual without seemingly any infrastructure such as drainage, schooling, access, surgeries, etc, AND to replace

current greenfield Grade 1 highly productive arable farmland. And especially when the local community already has

plans allowing for housing requirements for the next 15 years.

Bearing in mind the hundreds of acres of "brownfield" spaces available around our county, surely our locally elected authorities can do better than just turn our country villages into suburbia ??
