Subject: OBJECTION

Good Morning

I would like to strongly object to planning application Y/99/13.

This is an unacceptable application for 250 houses to be built on ground near St Marys Church. Yapton is a small rural village and such a housing estate will ruin the character of this village just so the landowner can make more money for his family. It is not in the best interests of the village as a whole. The site was assessed as unsustainable in 2013 and I do not see what has changed. I live in North End Road and already the road sees a busy stream of traffic during the morning and early evening. I understand that houses need to be built and we should have a right to have a say in the way new houses are built with smaller developments so we can keep our village as a village.

Please consider all objections as it is not about not in my back yard but how in my backyard.

Small developments are the way to go

Kind regards

Mrs Angie Forster
