Subject: Y/9/21/DOC

Dear Michael,

Please could the applicant confirm that 100% of the houses with a driveway or a garage have an EV charging point as this is not clear from the plan?

It would appear that dwellings falling under 'all other developments' such as flats and housing association properties do not have access to EV charging points. There is a requirement under the Arun Parking Standards for a certain percentage of these to have access to EV charging points.

Therefore, at the present time, Environmental Health is not satisfied that this condition can be discharged.

Regards

Fiona Fitzgerald
